

To the FCC, I live in a small New Mexico town where the radio stations are controlled by the people that buy them. They change the music to what they want and don't care about the people that had been listening to it for years. With XM radio I might pay for the service but it is worth it. I can listen to the music I like plus my husband can take it on the road when he goes out of town. I don't like the idea that there are companies and people out there that think they can tell us what we can and can not listen to. XM radio provides variety and quality that is not available elsewhere. Since I pay for this service it should not be up to the National Association of Broadcasters to dictate what I want to hear. I admit there is some music out there that I don't like but if the person doesn't force their music on me then it is fine. I urge the FCC to reject the NAB's petition 04-160 and let XM radio keep providing the instant weather and traffic for all the cities and the quality programming for the people that pay for it's is our right!!!!

Thank you, Carol Gonzalez
